Praesidium[®] Academy Online Training

Here is a valuable new service - online training through Praesidium[®] Academy which is offered to qualified insureds at no charge. Anyone involved in providing services to youth or vulnerable adults, including your staff and volunteers, may benefit from training in a variety of abuse prevention topics.

These courses provide the base knowledge for sexual abuse prevention including identifying and responding to red flag behaviors, how to prevent abuse, how to report suspected abuse and more. The courses include interactive multimedia activities, scenarios, and a quiz.

This online abuse prevention training system offers robust, easy-to-use administrator tools.

Administrators have access to an enhanced administrative portal which allows you to obtain real time reporting to track and manage users, track engagement and completions, view analytics for compliance tracking, etc. The user management platform allows you to add users individually or through bulk upload.

The links below provide more details on the service:

[General information on Praesidium's online training system](#), called Praesidium[®] Academy
